## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 6-10, 13-16 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Laney (US Patent 1,814,435).
3. Laney discloses a device comprising a base 2, a lever arm 8 having a first end and a second end, the first end pivotably connected to the base by bolts 9, a puller arm 15 pivotably connected to the lever arm between the first end and the second end, see figure 1. Applicant should note that "hook" 16 of the device of Laney is capable of engaging an underside of an engine cover to apply a pulling force thereto. In response to applicant's argument that Applicant should note that the recitation of the intended use of the device has not been given any patentable weight. A recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim. In the instant case, the device of Laney is capable of performing the intended use.

***Allowable Subject Matter***

4. Claims 4, 5, 11, 12 and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Claims 19-21 are allowed.

***Response to Arguments***

6. Applicant's arguments with respect to claims 1-3, 6-10, 13-16 and 18 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3726

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
